Code No: 157JC **R18**

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD
B. Tech IV Year I Semester Examinations, December-2023/January-2024
WEB & DATABASE SECURITY
(Computer Science and Engineering – Cyber Security)

Time: 3 Hours **Max.Marks:75**

Note: i) Question paper consists of Part A, Part B.
ii) Part A is compulsory, which carries 25 marks. In Part A, Answer all questions.
iii) In Part B, Answer any one question from each unit. Each question carries 10 marks and may have a, b as sub questions.

PART – A

(25 Marks)

1.a) What is the goal of Web attackers? [2]
b) What is the use of PGP? [3]
c) Define privacy. [2]
d) What is the content of RADIUS log? [3]
e) What is Trust management? [2]
f) State multi-level security policy. [3]
g) What is the goal of trustworthy record retention? [2]
h) What is the benefit of data profiling in databases? [3]
i) What is the need of privacy in data publishing? [2]
j) Give examples of location-based predicates for interaction type. [3]

PART – B

(50 Marks)

2.a) What is continuity identification? Briefly explain.
b) What is a replay attack? Illustrate the methods to stop the reply attack. [5+5]

OR

3. What is cryptography? Explain the role of cryptography in Web security. [10]

4. What is a Web bug? Provide the guidelines for using Web bugs. [10]

OR

5.a) Discuss the strategies for managing multiple usernames and passwords.
b) What is wiretapping? How to prevent it? [5+5]

6. Illustrate XML access control requirements and access control models. [10]

OR

7. Describe the trust management systems of OASIS and Cassandra. [10]

8. Explore how Information Hiding can be deployed as an effective tool for Rights Assessment for discrete digital data. [10]

OR

9. Discuss the limitations of traditional fault tolerance and failure recovery techniques in solving the DQR problem. [10]

10. Explain how the generic Bayesian privacy model can be applied to formulate and check meaningful privacy guarantees for publishing in open-world information integration systems. [10]

OR

11. Describe the challenges in providing privacy in a mobile environment. [10]
