

Code No: 157JE**JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD****B. Tech IV Year I Semester Examinations, June/July - 2024****WEB SECURITY****(Computer Science and Engineering (Artificial Intelligence and Machine Learning))****Time: 3 Hours****Max.Marks:75**

- Note:** i) Question paper consists of Part A, Part B.
ii) Part A is compulsory, which carries 25 marks. In Part A, Answer all questions.
iii) In Part B, Answer any one question from each unit. Each question carries 10 marks and may have a, b as sub questions.

PART – A**(25 Marks)**

- 1.a) What cryptography cannot do? [2]
- b) What do you mean by “secure Web server?” [3]
- c) What are log files? [2]
- d) Describe about planning for the forgotten threats. [3]
- e) Define integrity-based mandatory policy. [2]
- f) Discuss about lattice-based interface control. [3]
- g) Write about SCPU. [2]
- h) What is the DQR problem? [3]
- i) What is ASM-Trie model? [2]
- j) What are obfuscation techniques? [3]

PART – B**(50 Marks)**

- 2.a) Discuss about securing information in transit.
 - b) Briefly describe legal restrictions on cryptography. [5+5]
- OR**
- 3.a) Give real-world public key examples and explain.
 - b) Explain about understanding digital certificates with PGP. [5+5]
- 4.a) Discuss about protecting computer hardware.
 - b) Explain about picking a great password in detail. [5+5]
- OR**
- 5.a) Describe minimizing risk by minimizing services in detail.
 - b) What are Web bugs? Explain in detail. [5+5]
- 6.a) Explain about a three-tier security architecture.
 - b) Draw and explain the TrustBuilder2 framework. [5+5]
- OR**
- 7.a) Explain in detail about WS-Policy framework in detail.
 - b) Give an overview of database outsourcing solutions. [5+5]

8. Describe traditional failure recovery techniques and their limitations. [10]

OR

9. Explain about Hippocratic database technologies in brief. [10]

10. Explain in detail about privacy in Database publishing. [10]

OR

11. Explain the following:

a) Unified index for authorizations and profiles.

b) Location-based access control policies.

[5+5]
